Introduction

A strong brand is critical to the success of Indiana University School of Medicine. Brand recognition helps members of the public and key audiences link the school’s name—and the iconic IU trident—with advances in medical research, education and patient care.

The stronger our brand, the more successful IU School of Medicine will be at recruiting faculty and learners and attracting funders and industry partners. A strong brand also enhances our partnership with IU Health, which shares use of the trident, and will result in increased recognition of our joint expertise.

One of the most important ways to build brand is through consistency and simplicity. While the school includes hundreds of programs, units and degrees, we all fall under the umbrella of IU School of Medicine. By representing these programs collectively under one primary brand, we will be more successful in gaining national recognition.

For this reason, IU School of Medicine has adopted a school-first branding strategy that discontinues most logos for individual units and focuses on the overall school name. As you will see, the brand guidelines still provide ample opportunity to showcase your programs and units but in a way that elevates all of us.

This document outlines IU School of Medicine’s branding policies and guidelines. While in accordance with Indiana University branding, the school’s policies are often more prescriptive and take precedence.

The IU School of Medicine brand and visual identity must be applied when representing a school program and when work is funded through the university (including external grants that flow through the university/school).

If you have questions that this guide does not answer, please contact the Office of Strategic Communications and Visual Media at vismedia@iu.edu or 317-274-7478.
Official IU Logos: Seal & Trident

The IU Seal is reserved for ceremonial and executive-level communications. Given that many universities have institutional seals of approximately the same contours, the Block IU offers a more differentiating presentation. The seal can be used on ceremonial items such as certificates. Please contact Visual Media for more information at (317) 274-7478 or email us at vismedia@iu.edu.

At IU, the trident is the only logo to be used, both institution-wide and at the unit level. You must discontinue using all other logos and wordmarks.

You may not use any other graphical or typographical design to represent your unit. All of your marketing and communications efforts must be identified with the trident and your accompanying marketing lockup.

The iconic IU trident is the foundational element of our visual identity. It is the unifying symbol that represents all IU campuses, schools, and units—without any text or other identifying elements. Because the IU trident is the most recognizable element of the university, it should appear on all marketing materials. The preferred method of using the trident is in either its tab or extended tab form. More detailed information about the tab and the extended tab form can be found on page 15 of this guideline.

Two Identity Marks

**Lockup Logos**
For all marketing, presentations, spirit wear and promotional items

**Signature Logos**
Reserved for official stationery and business cards
Lockup & Signature Logos
Lockup Logos

The marketing lockup is the official logo to be used for all marketing purposes, including print materials, digital assets, spirit wear and presentations.

Custom lockups are only available for campuses, departments and school-level centers and institutes. In these cases, the School of Medicine name will be in the primary field and the department/campus/center name will be in the secondary field.

All other units, such as divisions, sections, department-level centers, residency/fellowship programs or administrative offices, must use either the school-level lockup or the lockup for the department to which they belong.

Eligible units should contact Strategic Communications for a custom lockup. The IU lockup generator may not be used to create lockups for School of Medicine entities, because the school has more prescriptive guidelines that must be followed.

Other important guidelines:

- Dean’s office units must use the school-level lockup and are not eligible for custom lockups. Examples include: Medical Student Education, Admissions, Diversity, etc.
- Degree programs should only use the school-level lockup.
- Research studies or trials may not have a unique lockup. The IU School of Medicine lockup should be used to promote clinical trials.
- The only exception to these rules are for promotional materials and merchandise. All recognized units of the school can work with the Office of Strategic Communications and Visual Media to develop a promotional logo for these limited purposes.

STARK NEUROSCIENCES RESEARCH INSTITUTE
Lockup Logos: School of Medicine

Use of these logos for IU School of Medicine is limited to specific campus signage and promotional materials. If you are interested in using the marketing logo rather than the approved IU School of Medicine signature, please contact Visual Media at vismedia@iu.edu.

Because the external/digital version of the mark includes the complete Indiana University name, it will be used for materials and digital applications targeted to stakeholders beyond the internal (campus) audience.

The internal/campus version of the logo uses the trident tab only and is ideal for inter-campus use, where the Block IU is fully recognized.

The IU crimson must be part of every variation—no version of the logo can be used in black and white (reverse).

Download top-level lockup logos at the following link:

https://iu.app.box.com/s/piatgvse1xva9e5bbbfvx1gu31t7trgu
Lock-up Logos: Departments

Download IU School of Medicine Department lockup logos at the following link: https://iu.app.box.com/s/piatgvse1xva9e5bbbfvxv1gu31t7trgu

When resizing the lockup logos, hold down on the shift key to keep the aspect ratio intact.
In some cases, it is important to distinguish the location of a campus in the lockup. Local community relations activities are one example. The distinction supports wayfinding or creates an identity for those campuses situated on other university campuses or within the broader community.

The campus names are lengthy, making readability a challenge with some applications of the marks.

Regional Campus Lockup Logos can be downloaded at this link: https://iu.app.box.com/s/piatgves1xva9e5bbbfv1gus3t7trgu
Signature Logos

The IU signature system facilitates consistent design and application of official identification. It includes both marks and typography.

The system offers horizontal and vertical configurations for use in IU official business cards, envelopes and letterhead.
Discontinued Signature Logos
In some cases, it is important to distinguish the location of a campus in the signature. Examples include signage and corporate materials such as business cards and letterhead. Local community relations activities are another example. In these ways, the distinction supports wayfinding or creates an identity for those campuses situated on other university campuses or within the broader community.

The campus names are lengthy, making readability a challenge with some applications of the marks.

In the majority of cases, the standard signature should be used with no campus distinction (Indianapolis does not have a campus signature) to strengthen association with the school's brand.

In written materials, the locations will be referred to as a "campus" vs. a "center." This more academic connotation distinguishes the campuses from university research and other centers.
Business Cards, Envelopes and Letterhead
Indiana University sets the standard for official letterhead, envelopes, and business cards. The recommendations for IU School of Medicine follow that standard and other guidance, such as the Quick Style Guide, does not apply.

Official stationery for all units, including campuses, departments, centers, institutes, and units may be ordered only from Document Services in Bloomington or Miles Printing in Indianapolis. Before a unit can order new stationery, it must request the appropriate signature from the Office of Visual Media at vismedia@iu.edu.

Letterhead will be printed on IU watermarked bond in either white or cream.

Electronic letterhead may be requested from the Office of Strategic Communications and Visual Media at vismedia@iu.edu. The product is a Microsoft Word file that looks like the department’s printed letterhead. The user can enter text directly into the Word file and send it, or convert the file to pdf. Please restrict the use of electronic letterhead to official correspondence that must be sent electronically.
Official Business Cards

Official stationery for all units, including auxiliaries, centers and institutes, may be ordered only from IU Document Services in Bloomington or Miles Printing in Indianapolis. Before a unit can order new stationery, it must request the appropriate signature from the Office of Visual Media at vismedia@iu.edu.

Strategic Communications recommends using the IU School of Medicine signature logo on all business cards. The name of the department, center, institute, division, or unit can be placed underneath the name of the individual. Single titles are recommended. If dual title is needed, recommendation is to keep it to two lines.

Co-branded business cards for IU School of Medicine and IU Health are also available. Contact Visual Media at vismedia@iu.edu for more details.

3. Click customize
4. Click continue
5. Complete the form
6. Click next
7. Please select value: one of three GME residency expansion sites
8. Click next
9. Check proof
10. If okay, check approve
11. If more edits are needed, click back
12. If okay, add to cart
13. Start checkout
Email Signatures
Email Signatures

Standard email signatures help faculty, staff and students represent the IU School of Medicine in a clear, consistent way.

Instructions detailing the creation of an email signature can be downloaded at the following link:

https://iu.app.box.com/s/piatgvse1xva9e5bbbfvx1gu3i7trgu
IU Brand Colors and Fonts
IU Brand Colors

The IU brand uses an extensive color palette that reflects the personality of Indiana University and includes appropriate options for all of your marketing and communications efforts. By using color wisely, you can help create a strong visual identity for the IU brand.

CMYK, PMS, and hex color values are meant for different mediums—and can result in inaccurate colors if you use the wrong one. To ensure your color values display accurately and are consistent with the IU brand, choose the appropriate value for the intended use and printing method of your marketing piece.

CMYK
For nearly all print work, use the CMYK values listed below for the most accurate brand color reproduction.

PMS
Also used for print work, the PMS value is based on the Pantone Matching System®. It should only be used when printing spot colors (limited use).

Hex
Hex values should only be used when reproducing brand colors on the web, in a digital, RGB environment. For more information about IU’s brand on the web, visit the Web Style Guide.

PICTURE

PMS 201
CMO Y 65 R 0 K 0
HEX #EDEBEB

CREAM

Cream and crimson are key components of the IU brand.

CRIMSON

Crimson is the visual anchor and should be dominant in all marketing materials.

PMS 201
CMO Y 0 R 100 K 34
HEX #990000

LIGHT CRIMSON

CMO Y 12 R 95 K 0
HEX #DD0031

DARK CRIMSON

CMO Y 12 R 95 K 54
HEX #4C1213

NOTE:
The different values associated with each brand color are dependent on the intended use.

CMYK: This value is based on the Pantone Matching System® and should be used for printing spot colors (limited use).

PMS: This value is based on the Pantone Matching System® and should be used for printing spot colors (limited use).

HEX: Hex values should be used when reproducing brand colors on digital, RGB environments.

The secondary color palette is designed to provide creative flexibility.

These colors are complementary to the primary color and were chosen so that they do not compete with IU Crimson.

Each of the five secondary brand colors have corresponding tints and shades to provide a range of color options.

Download the Formal/Informal Color IU Brand Palette at: brand.iu.edu/doc/downloads/iu-brand-colors-cmyk-2016.zip
IU Brand Font: BentonSans

Benton Sans
Benton Sans is strong, modern, and simple. Its variety of weights and widths allow the typeface to be used virtually anywhere.

Branded fonts can be downloaded from brand.iu.edu.
IU Brand Font: Georgia Pro

Georgia Pro Cond Light
Georgia Pro Cond Italic
Georgia Pro Cond Regular

Georgia Pro Semibold Italic
Georgia Pro Bold
Georgia Pro Bold Italic
Georgia Pro Black
Georgia Pro Black Italic

Georgia Pro is a traditional serif font that is familiar and confident, yet not overly assertive. It feels elegant, yet sturdy.

Branded fonts can be downloaded from brand.iu.edu
IU Brand Font: Salvo Serif

Salvo Serif is confident, noble, and reminiscent of the IU trident. The typeface is professional yet informal and approachable, even quirky.

Branded fonts can be downloaded from brand.iu.edu.
Brand Elements
Trident Tab and Extended Tab

For more information about which trident tab, extended tab, or marketing lockup logo would best enhance your communication goal, contact Visual Media at vismedia@iu.edu.

**Trident Tab**
Similar to the stand-alone trident, the trident tab gives you an easy way to brand your materials without having to use the more complex signatures.

You should use the trident in either its trident tab or extended tab form whenever possible.

---

**Extended Tab**
The extended tab gives you additional flexibility when applying the trident to your marketing materials. The tab in this form is intended for instances when it extends from a trimmed edge or screen (top, bottom, or side).

Only one side of the tab can be extended. The remaining three sides must maintain the original spacing.
The 45° Angle

1. The 45-degree angle
2. The IU brand looks deep within to reveal the truths that differentiate us.
3. The same is true of the design element that serves as the brand’s visual foundation.
4. When you look closely at the trident, you notice two angles that make up its outer pillars. These 45-degree angles symbolize what is unique about our logo.
5. All marketing materials should feature this angle. It’s a simple yet unique design element that infers your messages are coming from the core of the IU brand.

Notched container
The notched container can be used in the following ways:
- Call attention to your headline
- Accentuate your copy
- Highlight specific words to create emphasis
- Hold a photo

45-degree notch
The 45-degree notch can be used in a variety of ways from giving a silent nod to the brand, to acting as a dynamic element in your design. The beauty of the 45-degree notch is in its versatility. Use the notch in these ways:
- Add a notch in either Crimson (PMS 201) or white to the bottom corner of your design to add a subtle graphic that alludes to the brand.
- Use the notch to create dynamic fields of color to hold text and photo.
- A notch can also be used to contain labeling and/or page numbers to create a consistency from spread to spread in multi-page publications.
IU School of Medicine Tagline

Preparing Healers.
Transforming Health.

The IU School of Medicine tagline should be used to enhance the message that the IU School of Medicine is a trusted teaching institution and forward thinker in health. There are three options for using the tagline: block/stacked, single line and two lines.

If you would like to use the tagline, contact Visual Media at vismedia@iu.edu.

**BLOCK / STACKED FORMAT**
Use this tagline treatment (supplied as a graphic) when space allows. This version does not use periods.

PREPARING HEALERS
TRANSFORMING HEALTH

**SINGLE LINE**
This treatment may be created using all caps. Benton Sans Book is the correct font for the words “PREPARING” and “TRANSFORMING.” Benton Sans Black is the correct font for the words “HEALERS” and “HEALTH.” Use periods after both sentences.

PREPARING HEALERS. TRANSFORMING HEALTH.

**TWO LINES**
You may use the tagline in various applications using the same specifications as above. When using two lines, the leading should be 1.25 times the font size.

PREPARING HEALERS.
TRANSFORMING HEALTH.

PREPARING HEALERS.
TRANSFORMING HEALTH.
Promotional Items and Spirit Wear
Promotional materials can be a helpful way to introduce a stakeholder to your program or service and to instill pride in our community.

Promotional items can only be ordered in black, white, gray, and cardinal red.

IU-approved vendors must be used. These companies follow IU licensing agreements and are to reproduce approved variations of the Block IU.

Contact Visual Media at vismedia@iu.edu for a list of approved vendors or visit www.indiana.edu/~purchase/contract/contracts.php

Newly-produced IU School of Medicine white coats will use the version of the marketing lockup graphics demonstrated on this page. Future bulk orders will reflect this design. Departments have the option to have the name of the department or a faculty member’s name embroidered in type treatment on the right chest.
Promotional Items
Spirit Wear

- T-shirt: Wells Center for Pediatric Research
- Hoodie: Indiana University School of Medicine

Presentation Templates

Presentations offer a prime opportunity to highlight your connection to IU School of Medicine and the school’s expertise.

IU School of Medicine has approved PowerPoint templates that should be used for all internal and external presentations, including at national conferences.

The template prominently includes the IU trident. Access the approved presentation templates for IU School of Medicine Identity Assets at this link: https://iu.app.box.com/s/piatgvse1xv a9e5bbbfvxv1gu31t7trgu

The templates include multiple design options, including choices for opening slides. They are available in:

- Wide 16:9 (preferred based on modern technology)
- Standard 4:3
Co-branded Presentation Templates

IU School of Medicine has approved PowerPoint templates that are co-branded with IU Health, IU Health Physicians and Riley Hospital for Children at IU Health.

These templates should be used when you are representing your work as both a member of the school and health system. Co-branding can help elevate the reputation of the joint enterprise and should especially be considered for national presentations and conferences.

The templates include multiple design options, including choices for opening slides. They are available in:

- Wide 16:9 (preferred based on modern technology)
- Standard 4:3

Access the approved co-branded templates at this link:
https://iu.app.box.com/s/piatgvse1xva9e5bbbfvx1gu31t7trgu
Poster Templates

The IU School of Medicine has approved poster templates available for download from Visual Media. There are multiple configurations to meet research needs. Poster design can also be customized by contacting vismedia@iu.edu.

Access the approved poster templates at this link: https://iu.app.box.com/s/piatgvse1xva9e5bbfsv1gu31t7trgu
Co-branded Poster Templates

Researchers may wish to use co-branded templates when representing IU School of Medicine and IU Health.

Access the approved poster templates at this link: https://iu.app.box.com/s/piatgvse1xva9e5bbbfv1gu3t7trgu
Social Media, Web, and Video

Digital Media
Social Media

A unique avatar is used for IU School of Medicine’s social media channels. This mark is exclusive to social media and the promotion of social media channels. It is not for use on printed materials or for other digital applications.

The creation of separate social channels will be limited in order to drive traffic to existing channels. Rather than build a new presence, consider how promotional objectives can be reached through current channels.

If you have questions about the IU School of Medicine’s social media channels, please contact the Office of Strategic Communications at iusm@iu.edu
Web Pages

The IU School of Medicine webpages are housed within the Indiana University website structure. The Office of Strategic Communications has developed specific standards for content and images and oversees implementation. For more information contact iusm@iu.edu.
Video

Videos should include the IU School of Medicine lockup logo, either as part of the intro animation or conclusion. In addition, IU School of Medicine adheres to university standards for lower thirds, the element that includes subject’s name and title. There are two options, shown to the right.

In determining how to identify the subject consider audience familiarity with the role. For example, “cardiologist” may be more easily understood than “professor of medicine.” In addition, many faculty or staff have multiple titles – use the title that best represents what they are speaking to in the video/purpose of the video.
Style Guide
Quick Style Guide

Composition Titles
Applies to book titles, academic/research paper titles, journal articles and lecture titles:
- Capitalize principal words, including prepositions and conjunctions of four or more letters.
- Only if it is the first or last word in a title, capitalize articles: the, a, and.
- Put quotation marks around the names of all such works.

Degrees and Credentials
- Don’t use periods on degree references; use MD, PhD, etc. Set off by commas after full name. On second reference, refer to an individual by last name only. Avoid use of the title Dr. unless it is used in a direct quote.
- Use an apostrophe in bachelor’s degree, master’s, etc.; no possessive in Bachelor of Arts or Master of Science.
- Identify departments and divisions as an entity of IU School of Medicine (e.g. IU School Department of Pediatrics), especially on first reference.

IU School of Medicine
- On first reference, spell out Indiana University School of Medicine; use IU School of Medicine on subsequent references; do not use IUSM.
- For brevity, the first reference to a department can include the abbreviated use of name, IU School of Medicine Department of Pediatrics.
- Do not use spaces before or after en dashes in campus names: Indiana University School of Medicine–Evansville.
- Refer to the school as IU School of Medicine or Indiana University School of Medicine with no the preceding it, except when the name is followed by a specific team, office, campus, etc.: The IU School of Medicine Department of Pediatrics.

Departments and Divisions
- Capitalize department names when used as a formal reference (Department of Chemistry); lowercase for general reference (chemistry).
- Identify departments and divisions as an entity of IU School of Medicine (e.g. IU School Department of Pediatrics), especially on first reference.

Online Terms
- Use internet, website, webcam, webcast, webmaster, webpage; but web address, web browser.
- Don’t use http:// or https:// when spelling out web addresses.
- Avoid hyperlinking the words click here or something similar. Anchor text should explain what the link offers: Visit IU School of Medicine.

Numbers
- Use figures for dates, decades, years, ages, ratios, monetary units, scores and percentages. Always spell out percent.
- Spell out whole numbers below 10, use figures for 10 and above. Use commas in numbers above 999.
- Use lowercased million or billion, never abbreviate with M or B.

Punctuation
- Do not use a final comma in a series of items unless needed for clarity or if one of the items includes “and” or “or”. The flag is red, white and blue. He liked salami, ham, and peanut butter and jelly sandwiches.
- Some publishing systems have trouble translating em dashes (long dash); use double hyphens with no spaces on either side.

Titles
- Lowercase and spell out titles when not used with an individual’s name: The dean issued a statement.
- Capitalize a formal title when used immediately before a name: IU School of Medicine Dean Jay L. Hess issued a statement.
- Lowercase titles when used in constructions set off by commas: Jay L. Hess, dean of IU School of Medicine, issued a statement.

Times, Dates, Places, Terms
- Use figures except for noon and midnight. Use a lowercase “am” or “pm”; do not use periods: 11 am, 1 pm, 3:30 pm, 9-11 am.
- Don’t use the year unless the date is more than a year ahead or past.
- Spell out numbered streets nine and under: 5 Sixth Ave.; 340 West 10th St. Use abbreviations such as Ave., Blvd. and St. only with a numbered address: 1120 South Dr. Spell them out and capitalize without a number: South Drive.
- Spell out the names of states: Indiana, not IN or Ind.
- Use health care in place of healthcare.
- Don’t use second or second-person voice; use third person to keep language as clear as possible.
- Use present tense and a forward focus in communications.

This Quick Style Guide is intended for use in IU School of Medicine print and digital materials. It does not apply to Identity Package materials (letterhead, business cards, etc.), to reports, most internal documents such as policies, etc.
Portrait Guidelines

Professional portraits are scheduled Tuesday – Thursday, 9:00 – 4:00. Contact Visual Media at 317-274-7478 or vismedia@iu.edu.

Stock images cannot be used to depict faculty students or staff. This applies to all print and digital materials, even those for internal use. Photo releases are required and should be kept on file by the department or center. Images approved for use in digital or print materials will be stored in the IU School of Medicine image library. Other stock images not approved for use: community or cityscapes not of the area depicted, buildings (interiors or exteriors) not part of the IU School of Medicine campus.

Stock images approved for use:

• Equipment, research materials or devices used to illustrate content or support information.

• Lifestyle images of people that support related content but do not suggest those pictures are individuals referenced in the content. For example, a stock image of a family at play can be shown on a web page about a safety program. An individual/portrait style image of a child on a page about a particular heart condition could not be used.

Photographs are frequently used on webpages, in marketing materials, newsletters and other forms of communication. It is important that faculty, researchers, staff, residents, and students of the IU School of Medicine are positively presented with recent portraits composed in a consistent, professional manner.
Portrait Guidelines

Style Guidelines for Portraiture

The following guidelines will provide guidance to the selection of the most appropriate photograph to submit to the IUSM Image Library.

- Professional portraits only. “Point and shoot” or badge/ID photos are not acceptable.
- A gray background is highly preferred and recommended.
- The subject should wear professional attire. No LAB COATS or SCRUBS.
- Individual portraits should show the entire head and shoulders, in a seated pose with the shoulders positioned to the subjects right. No full length or close-ups (subject should be four feet away from the camera).
- All photography must be in color.
- Photos must be recent. A good rule of thumb is to update a portrait every five years.
- Digital photo files should have minimum dimensions of 1,500 pixels width x 2,100 pixels height, which at 300 dpi will translate to a 5x7 inch printed image. A TIFF (TIF) file format is preferable. JPG images are acceptable, but minimal compression should be applied when they are created. Please, no GIF or PNG images. If you have questions about digital image formats, sizes or compression, please ask us. Contact us at 317-274-7478 or at vismedia@iu.edu.

INDIANA CENTER FOR MUSCULOSKELETAL HEALTH

SCHOOL OF MEDICINE
INDIANA UNIVERSITY SCHOOL OF MEDICINE
Indiana's only National Cancer Institute Comprehensive Cancer Center

Our comprehensive designation is new. Our pioneering research is not. The National Cancer Institute – the nation’s top cancer agency – designated us a Comprehensive Cancer Center for our excellence in basic, clinical, and population research, outstanding educational activities, and effective community outreach programs.

As one of only 51 centers nationwide to hold this prestigious recognition, we are at the forefront of cancer research. We are proud to work with our patient care partner – Indiana University Health – to combine world-class research with the highest quality of care for patients.

Our mission is to transform healthcare through research, education, and patient care. We are committed to advancing the causes of human health and helping to create a world free from cancer.

Preventing, detecting, and treating cancer as we know it today will require significant advances in science and technology. We are dedicated to being at the forefront of these advances, pushing the boundaries of what is possible.

Our research is focused on understanding the fundamental mechanisms of cancer, discovering new treatments, and improving outcomes for patients. We are committed to finding the cure.

We are proud to be part of a community of researchers, educators, and healthcare providers dedicated to improving the lives of people with cancer everywhere.

Preparand Healers. Transforming Health.
Centers: Guiding Principles

All IU School of Medicine research must adhere to the school's brand standards.

Research is considered part of School of Medicine if:
• The PI has a primary appointment in IU School of Medicine
• Grants are administered through IU School of Medicine
• The research receives philanthropic support via IU School of Medicine

Researchers must:
• Use appropriate IU School of Medicine identity standards (logos, fonts, colors)
• Use IU School of Medicine approved presentation and poster templates when showcasing research
• Represent their work on the IU School of Medicine website

Researchers may not:
• Create a separate identity/logo for their research or program
• Build an independent website

In multi-institution or multi-school partnerships, the above guidelines should apply. If a compelling case exists as to why IU School of Medicine branding or guidelines should not apply, the school’s Research Cabinet will make a final determination.
Centers: School-level

- Determined by reporting line to the Dean of the School of Medicine or his designee
- Applications to be considered a school-level center or department are reviewed by the Dean in concert with the Executive Associate Dean for Research Affairs
- Name of center should include Indiana University School of Medicine
  Example:
  - Indiana University School of Medicine Center for <<Type of Research>>
  - Center for <<Type of Research>> at Indiana University School of Medicine
- Note: Moving forward, only university-wide research centers and institutes, established by application to the IU Vice President for Research, should use IU in the name without School of Medicine
- Participation of other IU schools and external partners may be reflected through content/copy.
- Must be represented on the IU School of Medicine website and cannot have an independent site. Note: Only university-wide research centers should be represented on the overall IU website (ex: centername.iu.edu) instead of on the school website (medicine.iu.edu/centername)
Centers: School-wide Level

- Brown Center for Immunotherapy
- Center for Computational Biology and Bioinformatics
- Herman B Wells Center for Pediatric Research
- Indiana University Melvin and Bren Simon Cancer Center
- Indiana University Center for Diabetes and Metabolic Diseases
- Indiana Center for Musculoskeletal Health
- Indiana Center for Regenerative Medicine and Engineering
- Indiana Clinical and Translational Sciences Institute
- Stark Neurosciences Research Institute
- Vera Bradley Foundation Center for Breast Cancer Research
Centers: Department-level

- Department-level centers and institutes do not have a reporting line to the dean’s office. If researchers from multiple departments are involved, the center or institute will be considered part of the home department where the director or PI is assigned.
- Will use the lockup logo for the School of Medicine or the department to which it belongs. May not have a separate logo. Should use prominent type treatment to highlight the center’s name.
- Name of center should include Indiana University School of Medicine and may include the name of the department to which it belongs
  Example:
  - Indiana University School of Medicine Center for <<Type of Research>>
  - Center for <<Type of Research>> at Indiana University School of Medicine
- Must be represented on the IU School of Medicine website within the department to which it belongs. (ex: medicine.iu.edu/pediatrics/centername) May not have a separate site.
Research Cores: School-level

- Determined by Office of Research Affairs.
- Should use IU School of Medicine main lock-up logo. May not use alternate logo.
- Name of core should include Indiana University School of Medicine Example:
  - Indiana University School of Medicine <<Name of Service>> Research Core
  - <<Name of Service>> Research Core at Indiana University School of Medicine
- Research cores should not use the term “center” in their names, as that designation is reserved for specific entities approved as such.
- Any centers being named for a donor or in honor of someone must be routed through the dean’s office and receive university approval.
Centers: Department-level

- Brain Rehabilitation, Advanced Imaging, and Neuroscience (BRAIN)
- Center for AIDS Research
- Center for Human Papillomavirus Research
- Center for Outcomes Research in Surgery
- Center for Neuroimaging
- Glaucoma Research and Diagnostic Center
- Institute of Psychiatric Research
- Pediatric Center for Comparative Effectiveness Research
- Ryan White Center for Pediatric Infectious Disease and Global Health
- Traumatic Brain Injury Model Systems Center
- The InterFACE Center
Centers: Affiliated

• Regenstrief Institute
• Center for Health Innovation and Implementation Science
• Indiana Biosciences Research Institute
• Indiana University Center for Aging Research
Student Organizations
University Student Organization (USO)

A small number of student organizations be considered University Student Organizations and will be treated as operating units of Indiana University. As such, USOs entitled to administrative services as a university unit and additional use of IU branding. However, USOs comply with all university policies. Determination of status as a USO made by the campus dean or vice chancellor of student affairs and the campus vice chancellor for finance and administration and/or controller. Final approval of USO status rests with university administration. Factors to be considered are funding sources and organizations, IU staff support, management of risk, integration with university operations, and the historical and reputational relationship between the student organization and IU.

As USOs are treated as operating units of Indiana University, there are key differences in designating a student organization as USO:
- USOs may not have an outside bank account and must use IU accounts.
- Donations and gifts to the USO are counted as donations to Indiana University. Other revenue producing activities must follow the Establishing and Modifying Revenue Producing Activities (RPA) policy.
- USOs may not have outside employees, any employees must be IU employees.
- The affiliated IU campus, school, or department controls the funds, advising, risk mitigation, travel, and training for a USO.
- USOs may use the Indiana University name and marks as well as those of the affiliated campus, school, or department.
Self-governed Student Organization (SGSO)

Most student organizations at Indiana University are considered as Self-Governed Student Organizations (SGSOs). The SGSO is an independent entity or independent association of individual students. The university recognizes the important role played by the SGSO in engaging students, creating a diverse co-curricular environment, fostering the expression of students’ ideas and interests, and adding to the unique identity of Indiana University. The relationship between the university and SGSOs is viewed as consistent with the University’s philosophy of education and student self-governance.

Self-Governed Student Organizations are considered separate organizations and must register annually and agree to and operate under the terms of the Self-Governed Student Organization Agreement (SGSO Agreement). SGSOs may receive a range of benefits by participating in the SGSO process and operating under the SGSO agreement, including eligibility to apply for and receive student activity fee funding; priority use of university facilities and services; an association with the Indiana University name through approved IU student organization branding elements; a network ID and email address; and the option of accounting management assistance where available.
