8:00 am Registration and Check-in

8:30 am Andrew J. Saykin, PsyD, IUSM, Radiology & Imaging Sciences, Director, IADC: Update on IADC Research Initiatives

9:00 am Bernardino Ghetti, MD, IUSM, Pathology, Director, Neuropathology Core, IADC: Deciphering Tau Neuropathology: From Silver Stain Toward a Near-atomic Resolution.

9:55 am Cynthia Massad, PhD, Biogen, Inc, Cambridge, MA, Medical Science Liaison: Developing Therapies for Alzheimer’s Disease - An Industry Update.

10:20 am Keynote Lecture, Henry Paulson, MD, PhD, University of Michigan Health System, Ann Arbor, MI; Lucile Groff Professor of Neurology for Alzheimer’s Disease and Related Disorders; Ubiquitin Pathways in Neurodegenerative Diseases.

11:20 am Lunch (Visit Exhibits and Posters)

12:00 pm Stark Seminar Speaker, Rakez Kayed, PhD, University of Texas Medical Branch, Galveston, TX, John Sealy Chair in Parkinson Disease Research: Implications of Amyloidogenic Proteins Interactions and Tau Oligomeric Strains in Neurodegenerative Diseases.

1:00 pm Yu-Chien Wu, MD, PhD, IUSM, Radiology & Imaging Sciences: Diffusion MRI in Alzheimer’s disease.

1:25 pm Lauren Lynch, MSTP trainee, Purdue University, Biomedical Engineering: Scene-Encoding Activations and Resting-State Functional Connectivity in Older Adults with Subjective Cognitive Impairment.

1:45 pm Coffee Break

2:00 pm Debmoy K. Lahiri, PhD, IUSM, Psychiatry, Leader, REC-IADC: Update on the Research Education Core.

2:25 pm Bruce T. Lamb, PhD, IUSM, Director, SNRI: Update on Stark Neurosciences Research Institute and the MODEL-AD Consortium

3:15 pm Summary & Evaluation.

3:30 pm Poster Session
