Associate/Professor of Medicine with Endowed Chair - Endocrinology

Department of Medicine Division of Endocrinology, Center for Diabetes and Metabolic Diseases

The IU School of Medicine Department of Medicine (Division of Endocrinology) and the Center for Diabetes and Metabolic Diseases (CDMD) are seeking a highly motivated and collaborative diabetes researcher for an endowed chair position as associate or full professor. Qualified candidates will have a track record of excellence and funding in basic, translational or clinical diabetes and/or metabolism research, such as:

Translational/Clinical:

- Epidemiology of diabetes
- Genetics of diabetes
- Informatics
- Care innovation
- Health care disparities
- Other similar topics

Basic Science:

- Beta cell biology
- Insulin signaling
- Adipose biology
- Immunology of Type 1 diabetes
- Stem cell biology
- Other similar topics

To learn more or apply, [view this position online](#) or contact iusmhire@iu.edu.

Vibrant Community

The CDMD is home to nearly 100 highly collaborative diabetes investigators. Their work is bolstered by five outstanding research cores, a successful Pilot & Feasibility Program and engaging enrichment activities, including a weekly seminar series and an annual symposium.

Statewide Ecosystem

IU School of Medicine and the CDMD anchor the statewide diabetes research network, which spans partnerships between academic institutions and industry colleagues:

- Indiana University-Purdue University
- Purdue University
- Indiana Clinical and Translational Sciences Institute (CTSI)
- Indiana Biosciences Research Institute
- Regenstrief Institute
- Lilly Pharmaceuticals

National Leadership

The CDMD is an NIH-designated Diabetes Research Center—one of only 18 in the country. Its faculty provide leadership to several national and international networks:

- Type 1 Diabetes TrialNet
- Human Islet Research Network (HIRN)
- Integrated Islet Distribution Program
- Immune Tolerance Network
- Restoring Insulin Secretion (RISE)
- Network for Pancreatic Organ Donors with Diabetes (nPOD)
- Rare and Atypical Diabetes Network (RADIANT)
