HOW TO SIGN IN TO MEDNET

When signing in while on a personal computer, or signing in off-campus, remember to use the `ads\username` format for the text field. View instructions below for more details on signing in. Once signed in, MedNet will display the current logged in user in the top right-hand corner. For the best user experience, use a Windows machine and the Internet Explorer browser. If you are using a Mac, please use the native Safari browser for the best user experience. Other browsers may not be reliable or compatible with our portal.

**MedNet Users Sign In:**

Point your browser to https://MedNet.iu.edu

Sign In

Click the “Sign In” link in the upper right-hand corner of the MedNet web page.
### Connect with on or off campus computers

Depending whether you are using an on-campus computer or an off-campus computer, a security window may pop up requiring security credentials.

**Off campus:**
A security window as seen to the right will appear to authenticate your username and passphrase.

### Username and Passphrase

Type in your Indiana University username into the username box. Before typing your username, enter “ADS\” to establish the ADS domain. **Notice:** we are using the back slash \ (which is key above Enter key on keyboard)

Enter your corresponding IU Passphrase into the password box.

When finished click “OK”

### Verification

When signed in, your name is displayed in place of the “Sign in” link in the upper right corner on the DentNet home page.

---

This document is guided for the MedNet user to understand the process of signing in to MedNet. If you have any questions or concerns, please fill out an IT Helpdesk request at [MedNet.iu.edu](http://MedNet.iu.edu)
